EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with H. Warren Burnam, Jr. (Reg. No. 29,366) on 9/12/2008 at (703) 816-4000.

The application has been amended as follows:

58. (Currently Amended) A computer program product which provides a visual depiction of a three dimensional object upon a display device, the computer program product comprising computer readable coded instructions stored in a memory, the computer readable coded instructions being executable on a processor to which information is input via a user input device, wherein when the computer readable coded instructions are executed by the processor, the processor computer program:

makes a selection of at least one candidate connector object of multiple possible connector objects of a target solid shape for matching with a particular connector object of a movant solid shape, the selection being based on connector object information of the at least one candidate connector object and the particular connector object of the movant solid shape, the

movant solid shape having one or more connector objects including the particular connector object;

displays the target solid shape and the movant solid shape in accordance with the matching and in accordance with configuration information of at least one of the connector objects which are matched,

wherein the program makes the selection from among the multiple appropriate connector objects based on a rule of a rule database, the rule database either comprising or operating in conjunction with an enterprise resource planning (ERP) system.

59. (Currently Amended) A computer program product which provides a visual depiction of a three dimensional object upon a display device, the computer program product comprising computer readable coded instructions stored in a memory, the computer readable coded instructions being executable on a processor to which information is input via a user input device, wherein when the computer readable coded instructions are executed by the processor, the processor ~~computer program~~:

makes a selection of at least one candidate connector object of multiple possible connector objects of a target solid shape for matching with a particular connector object of a movant solid shape, the selection being based on connector object information of the at least one candidate connector object and the particular connector object of the movant solid shape, the movant solid shape having one or more connector objects including the particular connector object;

displays the target solid shape and the movant solid shape in accordance with the matching and in accordance with configuration information of at least one of the connector objects which are matched,

wherein the program makes the selection from among the multiple appropriate connector objects based upon a boundary condition criteria.

Allowable Subject Matter

Claims 2-5, 7-11, 20-26, 29-31, 34-37, 54-59, 61-66 and 69-76 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Independent Claims 58, 59, 65 and 66

The closest prior art references are Haller et al. (US Pat. Pub. No. 2002/0107673) and Zuffante et al. (US Pat. No. 2,219,049). The prior art does not teach or suggest wherein the program makes the selection from among multiple appropriate connector objects based on a rule of a rule database, the rule database comprising or operating in conjunction with an enterprise resource planning (ERP) system, or based on a boundary condition criteria.

Regarding Dependent Claims

All dependent claims are allowable due to their dependence from allowable independent claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
